

**REMARKS**

Claims 27-29 have been added to the application. These claims correspond to previously presented claims 21-23, but include the additional phrase in claims 27 that recites that the dispersion is without "any particles that are visible and had a diameter of 100  $\mu$ m or more". This limitation is supported by the Specification at, for example, page 18, the second paragraph.

Favorable action and early allowance of all the claims are requested.

Should there be any outstanding matters that need to be resolved in the present application, the Examiner is respectfully requested to contact Leonard R. Svensson Reg. No. 30,330 at the telephone number of the undersigned below, to conduct an interview in an effort to expedite prosecution in connection with the present application.

If necessary, the Commissioner is hereby authorized in this, concurrent, and future replies to charge payment or credit any overpayment to Deposit Account No. 02-2448 for any additional fees required under 37.C.F.R. §§1.16 or 1.14; particularly, extension of time fees.

Dated: September 6, 2007

Respectfully submitted,

By
